EXACT MECHANISMS OF PARTNERS ATTRACTION

INTERNATIONAL STANDARDS OF BUSINESS-INTERVENTION

OPENS WORLD OPPORTUNITIES

UKRAINIAN ENTREPRENEURS

helps

FIND PARTNER
START NEGOTIATION WITH HIM
REALIZE THE PROJECT

\$ EXPORT

The global market requires the movement of goods between countries. Therefore, buyers are buying goods from around the world

Similarly, as gold mining is light only when you know where it lies, the commodity producer must first find out who and where he is ready to buy his product. Then - enter into negotiations with the buyer and agree on terms of the contract

INVESTMENTS

Investments are the target money, which in any case will be invested in any projects. Investors are looking for projects to finance

Just as during the development of civilization the city was built around water bodies, because the availability of water was the key to the welfare of people, investors come to where there are better conditions, a profitable project, a trusting partner

€ GRANTS

Grants - allocated target monetary and non-monetary resources, which will be accurately provided to entrepreneurs. Donors are looking for projects that can be supported

Just as a good idea finds support in society, a business can get a grant if the company's idea is laid out:- innovative component;- humanistic idea;- social effect

LOANS

The task of Ukrainian and international banks is to manage resources effectively. They are sure to lend someone and look for new projects

Just as businesses need funds to implement the idea, as well as banks, the ideas of entrepreneurs are needed to reproduce their own financial resources. Money is "blood". They become more in the body of the growing business

EDC as Google™

Begins to work after receiving a request - an application form

Application form

EDC | how to become accredited PARTNER

Application form. The partner describes the list of services

The EDC responds within 3 days – clause 5.1 of the public offer agreement

Agreement on cooperation between EDC and Partner

Signs within 14 days of the official communication between EDC and the Partner - clause 5.9 of the public offer agreement

Tripartite agreement on the provision of services between EDC, Partner and Client

Signs within 14 days of the fact of official communication between EDC and the Client - clause 5.9 of the public offer agreement

EDC

Garant performance of the contract. Controls the quality and scope of services provided by Client Partner. Conducts an audit of the results. May suspend the operation of the Agreement in case of violation of conditions

Client

Clearly defines the goals, tasks, expectations of the service. Agrees with the Partner and the EDC about actions that may affect the result, informing about changes in the economic activity. Carries out recommendations

Partner

Provides to EDC client services on a fee or royalty basis. Terms, types of services, their volume, value, procedure of payment, etc., are defined in contracts on an individual basis

Parties

Adhere to communication standards and agreements (including verbal), in advance warn about the adjustment of agreements.

All communications under the contract have official status. Oral negotiations within the framework of the contract are subject to protocol and approval by the signatures of the Parties

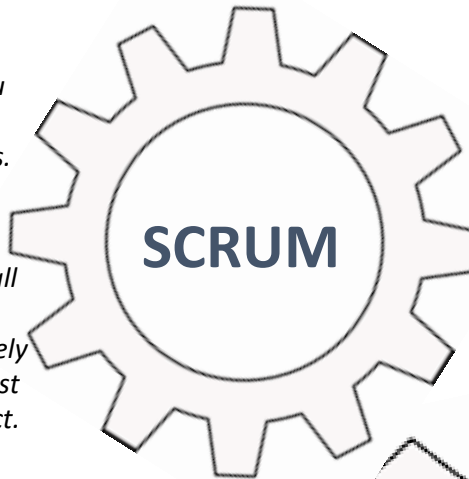

SCRUM

Project management technology that allows you to develop the highest quality products in any complexity. Used by leading global IT companies.

A team runs above each task (includes all those involved in the process). Each has its own task infrastructure, but clearly understands the overall purpose of the project.

Everything is worked out only together, exclusively through practical implementation with a very fast bug fix and constant improvement of the product. For each task a short term of solution is established with constant testing of the results.

BM-MAMI^{AD}

Business model which is based on Multiple Altruistic Micro Initiatives (MAMI).

The model is based on strictly regulated responsiveness, self-improvement and encouragement by the business of multiple altruistic micro-initiatives of people, first of all clients who are considered as co-owners of business within the framework of the MAMI business model.

CIM^{AD}

Communicative interactive method(CIM).

CIM - system of strictly declared linguistic-psychological technologies of personal self-control in the process of human interaction with the humanitarian environment.

Accelerates and facilitates the achievement of any human goals without the use of material or social resources.

EDC

The pilot project of the Ministry of Economic Development and Trade of Ukraine, implemented by the public organization "Regional Center of Sustainable Development" with the support of the Kherson Regional State Administration

goal

Formation and development of the ability of Ukrainian entrepreneurs to gain new knowledge, advanced world experience, build and use effective national and international links by providing entrepreneurs with individualized integrated services in the framework of joint EDC personal projects aimed at rapid achievement, clearly defined by the entrepreneur, tasks

mission

Constantly develop and promote entrepreneurship, encourage its development, create a comfortable environment for employers, as well as flexibility and productivity for the benefit of the entire national economy.

method

All work is constructed individually, designed and aimed at achieving the economic goals of a particular entrepreneur
